## Useful Links

Useful sites for finding songs:

**These sites generally supply words and chords for personal use and study.**

The better chord sites tend to be for guitar. They are generally as relevant to piano or keyboard as they are for guitar.

[\[#E-Chords.com~http://www.e-chords.com#\]](#)

[\[#http://www.ultimate-guitar.com~http://www.ultimate-guitar.com#\]](#)

This one is a favourite, as it has the ability to transpose the chords into the key you prefer.

For others; type into a search engine Chords for (your song title) the chords and lyrics will follow. The choices are huge.

Here is a link for obtaining a free metronome program you will find useful. (Quite a few other programs will download at the same time, I have found some of them useful. If you don't want them either uninstall them or do not download the metronome program.)

A range of other useful software for music files is also available on the same site.

For recording your work I use audacity which is a free download.
